Zoom 12/28/2024

For our last Zoom of 2024. We watch ST:LD S5:E06 "Of Gods and Angles". Then we watched Sammy Terry host "Santa Claus Conquers the Martians". It was a nice turnout for our Zoom. We had 10 Crew members and 3 guests for this event. Thanks to all that made this a fun meeting.

Starfleet Academy News

Congratulations to Lee Harris on passing the CORE exam and the Security exam. Super job Lee!

Letting Heaven Come Down

The phrase from the Lord's Prayer, "On earth as it is in heaven," is filled with incredible truth for your life. In the original language, it reads: "As

it is in heaven so on the earth." We tend to see our salvation as something starting on earth. In other words, we have to be more spiritual. But the truth of this Scripture is that the focus is always on "as it is in heaven." Salvation starts not with the earth trying to be like heaven but with heaven coming down to earth. So your part is to let heaven come to earth through your life. You can't become more holy from the earth up; you can only become more holy from heaven down - you have to let the holy come down. You can't generate the joy of God; you have to let the love and joy of heaven come down into your heart and your life. Your beautiful life is already there in the heavenlies. Let it come down and then...as it is in heaven so it will be on earth.

Bible Verse

Verse of the Day

So, my dear brothers and sisters, be strong and immovable. Always work enthusiastically for the Lord, for you know that nothing you do for the Lord is ever useless.

1 Corinthians 15:58 NLT

SFC News

I want to thank the commander and crew of the USS Indianapolis for inviting me to their holiday party.

I had a great time. This ship and its crew are what makes SFC works!

Thank you all

Admiral Tim Shell

Deputy Fleet Commander

Starfleet Command Q1

Apollo 1- January 27 1967

In Memoriam
The Crew of the Apollo Saturn AS-204
Apollo 1
January 27, 1967
Virgil I. Grissom
Edward H. White II
Roger B. Chaffee

Apollo 1, initially designated AS-204, was planned to be the first crewed mission of the Apollo program, the American undertaking to land the first man on the Moon. It was planned to launch on February 21, 1967, as the first low Earth orbital test of the Apollo command and service module. The mission never flew; a cabin fire during a launch rehearsal test at Cape Kennedy Air Force Station Launch Complex 34 on January 27 killed all three crew members—Command Pilot Gus Grissom, Senior Pilot Ed White, and Pilot Roger B. Chaffee—and destroyed the command module (CM). The name Apollo 1, chosen by the crew, was made official by NASA in their honor after the fire.

Space Shuttle Challenger

On January 28, 1986, the Space Shuttle Challenger broke apart 73 seconds into its flight, killing all seven crew members aboard. The spacecraft disintegrated 46,000 feet (14 km) above the Atlantic Ocean, off the coast of Cape Canaveral, Florida, at 11:39 a.m. EST (16:39 UTC). It was the first fatal accident involving an American spacecraft while in flight.
