

The Cloak

March 2021

St. Patrick's Day

February's Meeting

The meeting was at El Mariachi. We had 6 crewmembers in attendance. We had a few trivia contests, and we had one birthday. Everyone had a wonderful time and the food was really good. Caylee was being a little silly too.

Gnome Show

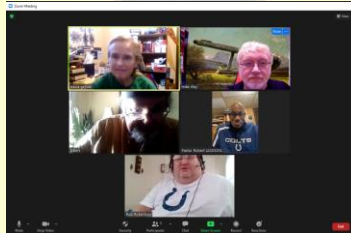

The Gnome Show will be at Garfield Park Conservatory and

will be from March 20 to April 11. We dropped off Mouse's Gnomes today for the show starting March 20. Last year this show was canceled. Mouse had 20 Gnomes for the show. Many of his Gnomes are the Star Trek Gnomes. Many of the crew are going to the show on the 20th.

Zoom Meeting

We had 5 crew members for this Zoom meeting. Thanks to all that made this a fun meeting.

Crew Birthdays

No birthdays this month

Planet Vulcan

Vulcan is a small hypothetical planet that was proposed to exist between Mercury and the Sun. The 19th-century French mathematician Urbain La Verrier hypothesized that peculiarity in Mercury's Orbit was the result of another planet, which they named "Vulcan".

Yes, it's the month that comes in like a lion, and goes out with your sister (I love that joke)! Hopefully it's the first glimmer of the light — and not the fright

— at the end of the tunnel. The last month has been especially rough on a lot of people — heck, the last YEAR has — but we remain hopeful, and continue in our quest to bring you horror and horrible laughs every Saturday night.
