## SFC News

This year, for the Mid-year Meeting, the Board has decided to try something a little different... and that's a good thing!

At this year's InConjunction get-together, the Board members that are able to attend will hold something of a "town hall" meet and greet event. It is similar to last year's activities where Board members will be available to answer any and all questions they are able from you, the members.

This will be a prime opportunity to ask all the questions you have to those in Command.

Historically, InConjunction is held during the July 4th weekend, making it difficult for many to attend. It was determined that a slight change may be in order. To this end, the Admiralty Board has concluded that the 'normal' mid-year meeting will be delayed by one week to 15 July 2023. This is predicated by the need to have our technical support team onsite to setup and operate the ZOOM call, giving the rest of the membership the opportunity to join in.

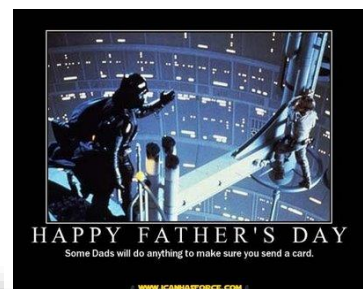

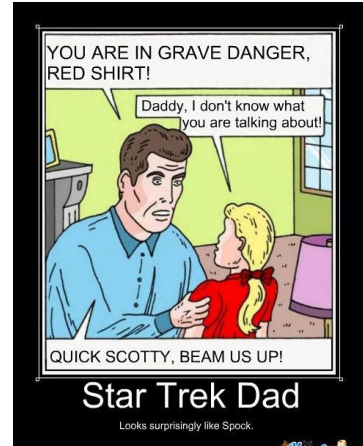

If you have questions, bring them to either gathering and have them answered. We want to know how you are feeling about the organization and if there is anything you'd let to address. We are all members. We all want to see Starfleet Command last another 50 years!
