Name the Episode

(secret word: July 4, 1776)

This Month In History

July 1, 1863 - Beginning of the Battle of Gettysburg during the American Civil War.

July 2, 1881 - President James A. Garfield was shot and mortally wounded as he entered a railway station in Washington, D.C. He died on September 19th.

July 3, 1976 - The raid on Entebbe airport in Uganda occurred as an Israeli commando unit rescued 103 hostages on a hijacked Air France airliner. The jet had been en route from Tel Aviv to Paris when it was hijacked by pro-Palestinian guerrillas. Three hostages, seven hijackers and twenty Ugandan soldiers were killed during the rescue.

July 4, 1776 - The Declaration of Independence was approved by the Continental Congress.

July 5, 1775 - The Continental Congress adopted the Olive Branch Petition expressing hope for a reconciliation with Britain. However, King George III refused even to look at the petition and instead issued a proclamation declaring the colonists to be in a state of open rebellion.

July 20, 1969 - A global audience watched on television as Apollo 11 Astronaut Neil Armstrong took his first step onto the moon. As he stepped onto the moon's surface he proclaimed, "That's one small step for man, one giant leap for mankind" - inadvertently omitting an "a" before "man" and slightly changing the meaning.

July 26, 1945 - The U.S. Cruiser Indianapolis arrived at Tinian Island in the Marianas with an

unassembled Atomic bomb, met by scientists ready to complete the assembly.

The Book of a Thousand Years

The longest book in the world is the Bible. Other books have more words and pages, but the Bible is longer. Why? It was written over a period of about 1500 years. There's no other book like it. Imagine a book that's begun at the fall of the Roman Empire, continued through the Middle Ages, the Renaissance, the Enlightenment, the Industrial Revolution, and finally finished by a modern day street vendor in the Bronx. It'd be a miracle for such a book to be at all coherent or consistent. That's exactly what the Bible is - it perfectly begins in Genesis and perfectly ends with the Book of Revelation. It bears the unmistakable mark of one author... God! Your life may be filled with lots of things that don't seem to be consistent, coherent, hold together, or make sense. But just as God wove together the Bible into something perfect and awesome, so He is able to weave together all the loose ends of your life. Just put Him first and follow His plot and your life will become something perfect and beautiful.

66 years

Just 66 years separate the Wright brothers' first flight and humanity's first steps on the Moon. 🚀🌕

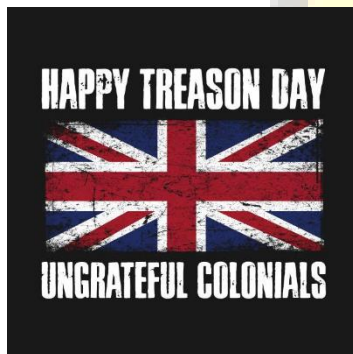

From lifting off the ground at Kitty Hawk in 1903 to planting a flag on the lunar surface in 1969—this is how fast we can move when curiosity leads the way.

Fun on the 4th of July
