## Svengoolie

We have finally arrived at what usually is the scariest month of the year — but every month has been kind of scary lately. Normally we'd be looking forward to wearing masks, but we've been wearing them every day now for months! And some think we should change the phrase from "trick or treat" to "sick or sanitizer?" Granted, this will be a very different Halloween month but, never fear — we still have the usual selection of fright films to keep your Jack O'Lanterns — and TV sets — aglow!
