January's Meeting

Our meeting was at the Denny's on the southside of Indy. It was a short meeting. Only 4 people could make this meeting.

Movie Time

USS Halsey ask us to go and see the movie Star Trek II: The Wrath of Khan at the Artcraft Theatre in Franklin,In.

My Trip

I took the shuttlecraft and went to the area they call California. On the way there I stopped at another area called Texas. Short stop. Checked out a gift shop.

When I landed in California, I checked out their Transportation. They have buses and cable cars. They are neat to ride on, easy to get wherever you are going without steering or walking.

Went to a museum to look at some artifacts from years earlier. Was told it could be from my family line. It was interesting, some of the things they had back then.

There was a rumor that the Star Trek Club had a building in the area. I asked about it, but nobody said anything.

They either didn't know anything or it is a big secret.

Could this be the future? Is this why no one is saying

Anything?
