

## The Cloak

July 2018

## Happy 4<sup>th</sup> of July

## June's Meeting

June's Meeting was at Mom's Family Restaurant . We had 5 crewmembers and 1 guest in attendance. We gave Paula an award, and it was Paula's birthday. We also had a few trivia contests too. Everyone had a wonderful time and the food was really good too.

## Smoky Mountains

Mouse took a week long away mission to several states to the Smoky Mountains. He went with his sister and her husband. They had a wonderfully time seeing lots of things.

## Breakfast Meeting

A few of us had breakfast at Mom's Family Restaurant. We gave Leroy and Kenni their birthday presents from the past two meetings they couldn't come to. Everyone had a nice time.

## Good Day to Dine

Leroy and Kenni went to the Paragon Restaurant for the "Good Day to Dine" Star Trek outing. It was a big turnout for this fun event.

## Crew Birthdays

Vicky Goldsby 07/02

## Meetup Group

The ship's Meetup group has 190 members now.

## SFC News

We hear the question a lot at the Academy. "How do I start taking exams?"

It all starts with just asking for a specific exam. There are EIGHT departments in SFC, each has it's own OCS and non-OCS versions in the School of Departmental Essentials. Some have follow-on intermediate and Advanced-level exams. (We are working on others).

- 1) Communications
- 2) Engineering
- 3) Medical
- 4) Operations
- 5) Sciences
- 6) Search & Rescue
- 7) Security
- 8) Fleet Marines

If you DO decide to become a Starfleet Officer, you should tell your CO of your intentions. Officer Candidates must complete ONE of these Departmental exams and pair it with the Officer Candidate School Exam. We published a little strategy statement earlier in this Group. Search for keyword "strategy".

If you are an officer already and decide to make the leap to becoming an SFC chapter CO - there is an Academy course requirement in this path as well.

Fandom is what we MAKE it,

GEN D. "Firehawk" Sauls, Commandant, Starfleet Academy

Starfleet Command Quadrant One

### Sci-Fi Trivia

**Random Sci-Fi Trivia**

1. In the film "Invaders From Mars" (1953), the protagonist (a young boy) had a prized collectible penny he kept in his pocket. How was it used to help escape the invaders?
2. In the film "The Thirteenth Floor" (1999), there are thousands of virtual worlds (some in the 1950's, another in 1937, etc.) However, what year is it in the "real world"?
3. In the film "Splice" (2009), what did the genetic scientist couple (Elsa and Clive) actually name their newly created Human-Animal hybrid?
4. In the film "Deja Vu" (2006), what is the answer to the following question asked twice during the movie: "What if you had to tell someone the most important thing in the world, but you knew they'd never believe you?"
5. In the film "Zathura: A Space Adventure" (2005), what race of lizard-like aliens appear out of nowhere and start attacking a house floating in outer space?
6. In the film "Surrogates" (2009), what is the name of the company that creates the remote controlled robotic virtual bodies (aka: surrogates)?

- Add to soups
- Use when baking

**HEALTH AND WELLNESS**

- Soothe a sore throat
- Treat tummy troubles
- Boost your energy
- Treat itches and burns

### Bible Verse

### Name the Episode

### Svengoolie

In a few days, it'll be time for "hooray for the red, white and BOO !" – when we celebrate the 4th of July, as we've entered the middle month of the summer, featuring our schedule of movies that include some relief

from a hot day with chilling nights- and Knotts; a summer vacation for a favorite fright family; a trip to the ocean where the fish are biting (literally!); and a one-eyed creature of legend throwing a STONE soul picnic! You'll see what I mean as you peruse our July roster of films...

JULY 14	The Ghost and Mr. Chicken
JULY 21	Barracuda
JULY 28	Munster Go Home

### Name the Movie

### StarBase Indy

Have you seen the guests we've already announced? Sandy Gimpel was in the pilot of Star Trek: The Original Series (both of them, actually) and is still actively working in Hollywood. She has 60 years of stories to share with us.

Dr. Erin Macdonald explains real science using science fiction worlds. Her Twitter bio describes her as a "red-headed tattooed Slythern" - and she holds a PhD in Astrophysics.
